

## PRESS RELEASE

### Jack Tubbs Appointed to AGC SCC Board of Directors

Denver, Colo. (November 30, 2015) - EnCon United, the parent company of several leading architectural and structural precast prestressed concrete companies located across the United States, is pleased to announce Jack E. Tubbs II, PE, MBA has been appointed to the AGC of Colorado Specialty Contractors Council Board of Directors.

Associated General Contractors of America (AGC) provides a full range of services satisfying the needs and concerns of its members, thereby improving the quality of construction and protecting the public interest. AGC of America Specialty Contractors Council (SCC) greatly encourages development of Chapter Specialty Contractors Councils, in addition to participation on the AGC of America SCC. The creation of SCCs and engagement of specialty contractors at the Chapter level has great potential to enhance opportunities for both specialty contractors and the Chapter itself. Tubbs' appointment is through December 2018.

Jack is the Director of Preconstruction for EnCon United, developing and managing new business development opportunities for EnCon Construction, EnCon Renew, EnCon Utah, and Stresscon Corporation. Additionally, Tubbs is responsible for business process initiatives and improvement, preconstruction design assistance and value engineering, sales, new market development, and product development.

Jack has been actively involved for many years in the business development and preconstruction communities. His previous experience includes commercial and industrial building construction, building design, energy studies, and preconstruction services in bid, negotiated and design-build projects. Tubbs is a licensed engineer in the states of Colorado, Illinois, Indiana, Kentucky, Michigan and Wyoming. He is also certified by the National Council of Examiners for Engineering and Surveying and licensed as an International Code Council, National Standard General Building Contractor (A).

#### About The EnCon Companies

The EnCon Companies are specialty contractors providing design assistance and engineered precast/prestressed concrete systems and services to all facets of the construction marketplace. As a full service precaster, EnCon designs, manufactures, and installs a wide range of high quality architectural and structural building components. Recognized as one of the leading precast companies in the United States, EnCon is pioneering the use of the latest technology for the design and fabrication of the precast structures. EnCon United is the parent company of Stresscon Corporation, EnCon Colorado, Atlanta Structural Concrete, EnCon Design, EnCon Washington, EnCon Northwest, EnCon Utah, EnCon Renew and EnCon Field Services. EnCon currently sells its products in over 20 states. For more information, visit [www.EnConUnited.com](http://www.EnConUnited.com).
